Let's make sure NVU cleaned up some of the comments in their codebase. We don't need them publicizing information that would help tip off DEADFACE. Use built-in browser tools to find any flags that we might have missed so far.

Submit the flag as `deadface{text}`.

1. Found by accident while looking for hidden paths.
2. Was located, plain as day, in the source code.

Flag: `deadface{c0ns013_l0gs_4r3_y0ur_fr13nd}`

```
console.log('%cFlag for curious developers: deadface{c0ns013_l0gs_4r3_y0ur_fr13nd}',
```
